

COMING SOON!!!

Registration Gateway

Intelligent Online Student Registration

Licking Valley Schools will soon transition to a new Centralized Registration process which will allow parents to enroll new students online AND update student and contact information such as phone numbers and email addresses. This new process will streamline our enrollment, eliminating the need for parents to enroll students at multiple buildings. You'll be able to create an online account, enter all of your students' information, upload required documents if you have those capabilities, and then schedule an appointment with our registrar at the District Office to complete the enrollment process for your students.

Watch for more information on REGISTRATION GATEWAY coming soon!!!
