

## Connecting To The Licking Valley VPN

- Make sure you are connected to your home wireless network
- Double-click on the 1-Connect To VPN icon

- Select the LV VPN and click Connect
- If you are asked for a user name and password:
  - User Name – lickingvalley\USERNAME (last name, first initial)
  - Password – Windows login password
- Once connected, double click on the 2-Connect To Shared Drives icon
- You now should be able to click on Start, This PC and be able to open your G: network drive and any Shared network folders you have been given rights to access
