

Student Work Permit Information

Students wishing to submit work permits must print and complete the Application For Minor Work Permit and Physician's Certificate For Minor Work Permit forms that can be found on the Student page of our district web site. Once these forms have been completed the student must bring the forms to the Licking Valley High School main office during regular school hours for final completion by our staff. Should students wish to submit work permit forms during the month of July the forms will need to be brought to the Licking Valley District office between the hours of 7:30AM and 3:00PM.

Please note that the final completion process by our staff may take up to 24 hours depending on staff availability.

Call the High School at 740-763-3721 for additional information.
