## Search for Children with Disabilities

School districts throughout Ohio actively participate in an effort to identify, locate and evaluate all children with disabilities birth through age 21. By disability, we mean conditions such as multiple disabilities, hearing impairment, visual impairment, orthopedic impairment, other health impairment, emotional disturbance, cognitive disability, specific learning disability, speech and/or language disability, autism and traumatic brain injury. Many children with disabilities are not visible because they do not function in the main stream of the community. Also, many unidentified children with disabilities are preschoolers. Parents may not be aware that programs and services are available. If you know of a child with a disability, please contact:

**Emily Green, School Psychologist, 763-3105 or  
Jan Clayton, Coordinator of Student Services, 763-2897.**

## STUDENT HANDBOOKS

Each student will receive a handbook at the beginning of the school year. The handbook will explain practices and procedures for the district and building. Please take time to read the handbook and review it with your student.

## COFFEE AT THE COTTAGE

Coffee

The Licking Valley community is invited to join Superintendent David Hile and other LV staff on Fridays at 7:30 a.m. at the Cottage Restaurant in Hanover during the 2011-12 school year.

## Licking Valley Local Schools Are Tobacco Free

The Licking Valley Board of Education prohibits the use of all tobacco products including but not limited to cigarettes, cigars, pipes, snuff and other smokeless tobacco at all school sponsored student activities by students, staff, visitors, or guests in all school district buildings, property, and vehicles. Tobacco use is also prohibited by students, staff and volunteers at all events away from school property where they represent the school district.

## School Day Bell Times

## STUDENT ATHLETES

### Board Policy #2431

The district would like to remind parents and student athletes that according to Board Policy #2431 students need to achieve a 1.66 GPA in the 4<sup>th</sup> academic quarter of each school year in order to be eligible for fall sports the following school year. High School students must also have completed 2.5 credits in addition to the 1.66 GPA.

## Transportation Department

Due to the fact that we have a number of buses that are either full or extremely close to full each day, the Licking Valley Local Schools Transportation Department has a policy that all requests for bus passes for students to be dropped at locations other than their regular stops will be approved only in emergency situations. Unfortunately, a request to have your child go home at the end of the day with a friend does not constitute an emergency situation. It would be unfair to allow students to ride home with friends on buses that are not full while students on full buses are not able to, so this policy is in effect for ALL buses. Final approval for all requests for bus passes must come from my office. Parents are welcome to contact me at 763-3775, or by email at [archerm@lickingvalley.k12.oh.us](mailto:archerm@lickingvalley.k12.oh.us). Thank you for your cooperation.

# Preparations for 1:1 Computing at LV

by David L. Hile, Superintendent

As many of you have learned in various ways, a team at the Licking Valley Schools has been exploring the concept of 1:1 computing for the past year. 1:1 computing is the concept that because we live in the Information Age, which is now largely the Digital Information Age, and virtually the sum total of human knowledge is available via computer devices online, we should put a computing device in the hands of each of our students from a certain age upward to connect them to that knowledge 24/7 to enhance their learning and to teach them to use computing devices effectively, efficiently and ethically.

In our explorations of 1:1, the team has visited a public school, Hicksville Exempted Village Schools in Hicksville, Ohio, where personnel implemented the concept several years ago, and who are now absolutely convinced that it is the right thing to do for students. At Hicksville, we met with the high school principal, assistant principal, tech coordinator, teachers and visited classrooms to see the concept in action. That one visit convinced us that 1:1 computing and the benefits it brings to the classroom in terms of instruction and student engagement meant that it was not a matter of 'if' we should do it, but 'when' and 'how'.

After our visit to Hicksville, the 1:1 team attended a 1:1 computing roundtable in Cincinnati where there were representatives from schools who have been doing 1:1 for many years and others like us who are exploring the idea. Educational Collaborators (EC) hosted the event and it was a wonderful learning opportunity for the team members.

Both before and since the Hicksville visit and the Cincinnati roundtable, the team has done extensive research on 1:1; reading the research about its impact on student engagement and student achievement, reading case studies on schools and districts that have implemented it both successfully and unsuccessfully, meeting to do cost/benefit analyses and to budget the project. We also wrote and received a grant through EC (LV was 1 of only 4 schools in the nation to receive the grant) that assisted us in surveying our teachers to identify their needs relative to 1:1 computing and the integration of technology in the instructional process, which has been invaluable in helping us think through the important aspects of building a plan of implementation. The EC grant was designed to provide us with access to 1:1 experts who did a thorough analysis of our district in regards to our preparation for implementing a 1:1 program. As a result, we received a comprehensive review of our district's needs and provided expert advice on planning and implementation.

Additionally, we have completed a 1:1 pilot at the high school in which 24 students in our globalization course, which Mr. Weaver and I co-taught in the spring semester of 2011, each had a netbook 24/7 for the entire semester. Through this pilot, we were able to learn a great deal about the actual netbook device; its strengths and weaknesses, various software programs and online resources, and we got a lot of excellent student feedback on the use of the netbooks and the structure of the course that was predicated on students using netbooks as their primary instructional tool. We will conduct two additional pilots at LVHS with two separate teachers in the fall of 2011, and Mr. Weaver and I will again teach the globalization course next spring as a 1:1 course. Thus, we will have conducted four 1:1 pilots involving four teachers and approximately 100 students prior to the rollout to students in the fall of 2012.

As a part of the grant, on August 2, a representative from EC will spend the day with our middle school and high school 1:1 teams finalizing our plan for year one, the 2011-12 school year, in which all teachers at both levels will have laptop computers for the first time. That plan will include a lot of professional development for our teachers and administrators in preparation for the high school students receiving their personal computing devices, netbooks, in the fall of 2012, and the middle school students receiving their netbooks in the fall of 2014.

As we continue our research and our planning, we will continue to communicate with you. Please let us know if you have any questions or concerns.

## The Title I Reading Program at Licking Valley

Title I is a Federal Aid program through which most Ohio School districts receive funding each year to provide supplemental instruction for those students who qualify. To receive these funds, each state must submit a plan describing:

- What children are expected to know and be able to do;
- The high-quality standards of performance that all children are expected to meet;
- An ongoing record of student progress through assessment.

The Title I funded schools must work to:

- Identify students who are failing, or most-at-risk of failing, to meet state standards in reading or math
- Focus instruction to meet the specific needs of each child
- Develop programs that add to regular classroom instruction
- Involve parents in all aspects of the program.

Our Title I targeted assistance Reading Program provides intensive instruction to help our low-achieving children in grades K-5 master challenging curricula and meet state standards in reading. Our Title I teachers work closely with their students' regular classroom teachers in designing their extra instruction.

Parents are invited to contact Title I teachers, regular classroom teachers and principals with any questions regarding information about our program.

### ATTENTION PARENTS!!! CONTACT INFORMATION UPDATES ARE IMPORTANT!

As you know, our school secretaries keep contact information on file for all of our students, including home phone, cell phone, and email data for all emergency contacts for each student. It is critical that parents make a special effort to notify your child's school promptly when any contact information for your student changes. The contact information on file is used not only by your child's school, but also by our transportation department in the event that a bus situation requires us to contact you. Also, our **Leader Alert** instant messaging system uses contact information for any recorded messages sent by the district, such as snow day notifications. We also use email address information for distribution of parent email messages during the school year. It is vital that all these departments have the most current information on file so that we can contact you if the need arises. So, please make sure to call the secretary at your child's school and update them on any phone number or email address changes. Should you have students at more than one building please contact each school to make sure they have the updated information as well. We can only keep our records current based on what our parents provide, and we appreciate your help in making sure your information is up to date.

### Licking Valley Athletic Boosters Concession Stand at Hartford Fair August 7 - 13, 2011

This week long adventure is fun, exhausting, and a great learning experience. The money raised helps all student athletes in the district by providing uniforms, travel expenses, equipment, food before and after games, and other miscellaneous expenses.

Each LV sports team has been assigned a day to man the concession stand. Hours are 10:45 A.M. till 9:30 P.M. each day. However, it takes a lot of man power to run the concession for a week. If you would like to volunteer your services, please contact any LV Coach or any one of the following: Toni Nethers, 763-4446; Charity McFarland, 763-4966; or Diana Nethers, 763-2542.
