## The Title I Reading Program at Licking Valley

Title I is a Federal Aid program through which most Ohio School districts receive funding each year to provide supplemental instruction for those students who qualify. To receive these funds, each state must submit a plan describing:

- What children are expected to know and be able to do;
- The high-quality standards of performance that all children are expected to meet;
- An ongoing record of student progress through assessment.

The Title I funded schools must work to:

- Identify students who are failing, or most-at-risk of failing, to meet state standards in reading or math
- Focus instruction to meet the specific needs of each child
- Develop programs that add to regular classroom instruction
- Involve parents in all aspects of the program.

Our Title I targeted assistance Reading Program provides intensive instruction to help our low-achieving children in grades K-5 master challenging curricula and meet state standards in reading. Our Title I teachers work closely with their students' regular classroom teachers in designing their extra instruction.

Parents are invited to contact Title I teachers, regular classroom teachers and principals with any questions regarding information about our program.

## Search for Children with Disabilities

School districts throughout Ohio actively participate in an effort to identify, locate and evaluate all children with disabilities birth through age 21. By disability, we mean conditions such as multiple disabilities, hearing impairment, visual impairment, orthopedic impairment, other health impairment, emotional disturbance, cognitive disability, specific learning disability, speech and/or language disability, autism and traumatic brain injury. Many children with disabilities are not visible because they do not function in the main stream of the community. Also, many unidentified children with disabilities are preschoolers. Parents may not be aware that programs and services are available. If you know of a child with a disability, please contact:

# Relay Recess™

Schools saving lives from cancer

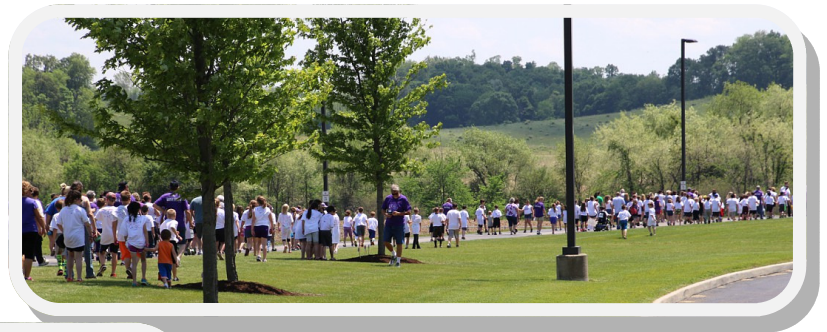

On Friday, May 27<sup>th</sup>, the Intermediate School hosted Relay Recess. What is Relay Recess? In essence, it is a Relay for Life that takes place within the school day. It was the perfect opportunity to have fun for a greater purpose – raising money for The American Cancer Society and supporting friends and family in their fight against cancer. There were many smiles, a few tears, and a lot of laughter.

Here are a few of the highlights:

- We raised OVER \$10,000 for The American Cancer Society.
- Over 55 cancer survivors came and were recognized for their fight.
- Panther paws were purchased in memory or in honor of loved ones.
- Students learned about community, service, prevention, and cancer.
- All who were present had FUN while supporting an important cause.
- Students created embellishments and donated them to The Turban Project, a nonprofit organization that makes turbans for cancer patients.

One goal of The American Cancer Society is to celebrate, remember and fight back....that's exactly what we did!
